

**The #PINKWAVE is here!**

**Vote Justine Caldwell for State House!!!**

Women of Rhode Island, unite! You have nothing to lose but your chains! Unite behind my sister in this struggle Justine Caldwell! East Greenwich is ground zero for the war against men. That's why our movement needs you!

Representative Giarrusso failed us when he didn't attend the sexual harassment training at the state house! We can send a message to all men by voting him out! Like so many women around the country, we knew it was time to stand up to misogynists like Representative Giarrusso. Women are being harassed everywhere! Everywhere!

Male sexual predators are roaming around our streets and Representative Giarrusso remains oblivious to the needs of women. He is out playing golf while women are being sexually harassed by men everywhere. He should have attended his sexual harassment training! The rule of law is no match for raging male hormones.

Men only care about sex! Our ex-husbands use sexually innuendos such as let's fool around to get us into bed. That just means sex! Men only want sex. They crave it! They expect us to cook, clean, iron their shirts and sexually gratify them whenever they want! Disgusting!

Men like Representative Giarrusso dodges serious issues by protecting male sexual predators. Representative Giarrusso denies he hates women but this isn't true! This is the perfect illustration of what is wrong with him. Issue after issue, Representative Giarrusso has sided with men and male perverts. Representative Giarrusso's good male friend is none other than Senator Ramon Perez! Ramon handed out printouts with tabs of "Teen" and "MILF" porn open in the background. This is what happens when you elect men to office! Disgusting behavior! Rhode Island needs to keep male perverts like Ramon from preying on the sisters, daughters, and mothers of our state! Pestering us online!

The residents of Rhode Island need female leadership like Justine at the state house to stand up to all men! A vote for Justine is a vote against men! Men control everything! Men use us like cattle for their sexual desires! Want to suppress our reproductive rights! We need

to band together as women to stop men from taking us back to the stone age. We are not things! Stop treating us so badly!

Men are a threat to our reproductive rights! Representative Giarrusso is just one of many men that want to hold us down. There are 14 court threats against Roe Vs. Wade because of men! 63% of Rhode Islanders support our right to have an abortion at any time! We have men in North Smithfield voting for racist resolutions! Men do not deserve to be in office! This is what happens when you elect men! It is time for women!

The Pink movement needs women like you. Consider volunteering with us to stop men once and for all. Women can stop perverted men by supporting my friend Justine. She knows men are the root of all our problems. Representative Giarrusso and Ramon are very wealthy, and has abundant masculinity. Justine is going to need all the help she can get.

We are organizing thousands of women to come out and vote for women like Justine. This is going to take a big female effort to be successful. We need those women to W-I-N to send a message to all men. We need a lot of women to organize women, cook for women, and even babysit for women! Women need to keep men out of the state house for good.

Rhode Island women have General Elections coming. Let us come together as women to compete financially against men and stop them. Help a woman win!

Justine has a tough race too! Representative Giarrusso cannot win against Justine by seducing our sisters, mothers, and daughters again! Women can stop men here! Representative Giarrusso's sleazy Italian charm won't save him this time! Women unite! End this tyranny of men! Together we can build a feminine utopia here in East Greenwich! Justine is the spark that will light the fire of our own feminist liberation!

Please support Justine Caldwell! E-mail the campaign: [hq@justine4ri.com](mailto:hq@justine4ri.com).
