

Dear Parent/Guardians,

In anticipation of the upcoming school year 2020-2021, the EG School Nurse Teachers would like to keep you advised of important topics related to our transition back to school. This is just the beginning of a series of updates we will be providing as the situation evolves.

- **Masks and Face Coverings**
 - It is anticipated that students and staff will be required to wear masks or face coverings during the school day.
 - We encourage our families to get their children used to wearing masks and face coverings now, before the start of school.
 - Please refer to this CDC [Link](#) for mask and face covering guidance including: type of recommended masks/face coverings, how to make a mask/face covering and how to launder.
 - Click on this link for helpful tips: [Helping kids get used to wearing masks](#).

Enjoy the rest of your summer,

Stay Safe,
Your EGSD School Nurses
